-> **Semi-Published Novel (2016) — A Forbidden Love**
A story about a female junior in high school, who is being severely bullied by a male classmate, discovers that the only person in the world she could trust, who happens to be in her online video game, is the **exact** person hurting her every day during school! She now has to decide, does she tell him, in hopes that he will change and be the friend she knows and loves. Or keep it a secret, and hope to graduate, never interacting with him again.

-> **Theatrical Script (2018) — Frienemies To Survive**
Spys are being killed off left and right during missions and sometimes, even in their own homes, requiring a new "Buddy System" for those who don't remain in the office. But what happens when you pair two people who fight every time they are in the same room together, and force them to keep each other alive?
